911 COMPLIANCE STATUS REPORT

VIA ELECTRONIC FILING

Federal Communications Commission
Enforcement Bureau
Spectrum Enforcement Division
445 12th Street, S.W.
Washington, DC 20554

Re: WC Docket No. 05-196
911 Compliance Status Report

1. We are currently providing fully compliant 911 services to one hundred percent (100%) of all of our US subscribers.
2. We are transmitting all 911 calls to the appropriate PSAP, designated default answering point, or appropriate local emergency authority utilizing the Selective Router, the trunk line(s) between the Selective Router and the PSAP, and such other elements of the Wireline E911 Network as are necessary in those areas where Selective Routers are utilized.
3. All of our domestic subscribers reside in 911 compliant areas. We have never marketed our service or provided service to subscribers in non-compliant areas in the US. Thus, we have never “stopped accepting new customers and marketing [our] VOIP service in non-compliant areas” because we have never operated in this fashion.

Respectfully,

John S. La Tour
